In 1852 the vine disease first showed itself, and Madeira grapes will soon become as much a matter of tradition as the golden apples of Hesperides. The people turned their attention to the cultivation of the cane, in which their ancestors had been so successful, and thousands of acres were planted with it. The business had been found to pay well, much better, indeed, than that of wine making. Unfortunately, no sugar has been made from the cane of Madeira, most of the juice being converted into ardent spirit. In 1855 the number of 1856 there were eighteen sugar mills at work on the island crushing cane. The reason why no sugar has been made is, that competition with the established producing countries was thought impossible, but, at present prices, it ought to pay to make sugar in

DESCRIPTION OF THE INITIATION OF A SON OF MALTA BY A POLICEMAN.—We heard a few days since an ex-police officer, now a constable, give a description (as he heard it) of the initiation of a Son of Malta. If what he says be true, we do not blame the timid for being a little backward in joining them. We, however, rather think he has an imaginative ear .-We give his story in his own language as near as we can remember it :

"I was placed one night last summer on the corner of certain streets. The Sons of Malta held their meeting just opposite from where I was standing .menced the awfulest row I ever heard. What few says: and then it was still for a few seconds. I just had time to warn this citizen, when he ran out of the way as soon as possible. I heard something fall, and I was perfectly satisfied that they had thrown him out of the three story window. I repaired to the guard house for assistance, and then went back and took a good look, and the names of all who came out of the room. I could never hear of a man missing, but if I had, I should have had every one of them arrested."

We learn, from good authority, that on a certain night last summer, whilst the Sons were initiating a member, a dog, who had gained admittance, got frightened and leaped out of the window, but miraculously, did not get the least hurt. This may have been what our trightened friend heard fall

MANUFACTURE OF COUNTERFEIT WINES .- The following singular fact is recorded by the Paris corres-

A FAR WEST SANCTUM .- The Kansas correspondent of the Richmond Enquirer, in a recent letter to that paper, thus describes the sanctum of the editor of the Weekly Herald, printed in Leavenworth (Kansas) City, at that time he made a visit :

The routine of instruction is specially adapted to the preparation of youth for a University course, and for the prac ical business of life. To this end, instruction of the most thorough character is imparted in the Grammars of the English, Latin and Greek languages, whilst the historians and poets of the two latter, requisite for admission to College are carefully read and critically analyzed. Much attention is also bestowed on Spelling, Reading, Writing, Arithmetic, Geography, Algebra, and other studies essential to a sound English Education

The great object constantly kept in view, is to give thorough instruction in every branch of education professed to be taught, and we appeal to the patrons of this Institution to say if it has not fully accomplished this purpose.
The discipline is mild and easy to those who conduct themselves properly -- whilst those regulations deemed essential to the proper government of youth, removed from the restraints of home, are enforced with firmness, but without harshness. Only one small lot (35 head) of grass tatted orougat in during the past week, and sold at 6 cents per lb. we quote at 5 a 6 cents, as in quality. Sheep are also in fair enquiry, and few or none coming in; a good article readily brings highest price. We quote at \$1 75 a \$2 25 each. CORN MEAL-Is in fair demand for retailing purposes, and remains without change in price; -none received from the country. FLOUR-The market continues to be pretty well stocked with low grades of Northern, and rules exceedingly dull, with sales only in the small way. We quote at \$6 a \$6 50 for fine, as in quality. In the market for State brands we note a decidedly better feeling. The limited receipts for the past week, together with the reduced stock on market, and architectural, and supply drafts for machinery and mill-(several parcels having been shipped) has caused more enizens of Wilmington and its vicinity, that he quiry from dealers, and rates have advanced on previous No. 5, Market st, near the wharf, where he will keep every description of

description of closing at highest figures, with a further upward tendency.

GRAIN-For CORN the market rules about the same as noted at the close of our last review. There appears to be Front st., or at the Machine Shop in the rear will receive a better feeling manifest in the market, as the large parcels prompt attention. Having extensive facilities, he will keep constantly on hand the most splendid and extensive assortment of Saddlery goods and dealers show more disposition to operate. The receipts and dealers show more disposition to operate. The receipts for the week comprise only about 8,200 bushels, and disposed of as follows: 3,000 bushels at 90 cents; 1,200 do. at 92 cents per bushel; 1, 00 do , to arrive, on private terms; and balance gone into store. There is a good supply in dealers hands, with a moderate demand existing from consumers.—OATS—The stock in dealers hands has been considerably reduced, and we note a moderate demand at present. No receipts, and in the absence of sales we quote nominally at 65 to 68 cents per

oushel .--- PEAS-Of all kinds are very scarce, and enquir ed for at high prices;—the stock on market being confined to a few small lots of Cow in dealers hands. No late sales, and quotations nomical. See table. Retailing from store at \$1 50,a \$1 62\frac{1}{2}\$ per bushel.—RICE—The stock of clean in store is fully fair, and demand limited. We reduce our figure a shade, and quote small sales at 4\frac{1}{2}\$ a 5 cents per lb.

HAY.—The market is very heavily stocked, and closes exceedingly dull for all descriptions. The receipts for the week comprise some 1,109 bales, of which 350 do. Northern sold at 82\frac{1}{2}\$ a 85 cents, 90 days; and 759 do. Eastern at \$1 per 100 lbs.

Selling from store and wharf at \$1 35 a \$1 40 per cask. Molasses—We have no change to make in prices; market fairly supplied. The cargo of 194 hhds. Cuba, noted a short time since as bonded, has beenput in market, and is selling at 54 a 55 cents per gallon, as in quantity.

Potators—New crop Irish have been brought to market quite freely for the past week, and selling at \$1 25 to \$1 40

Provisions.-In N. C. cured Bacon we have no change to eport so far as regards prices. Little or none has been rought in for several weeks, and the stock on market has become nearly all worked off. There is a moderate enquiry existing for retailers' use, but owing to the light quantity on market, we have to notice only small transactions at 16 cents per lb. for hog round. Quotations in table for hams, &c., are merely nominal, as we hear of no sales. For Western cured the market has ruled exceedingly quiet, as there is only a limited demand, and we note a good stock in first hands.

We reduce figures a shade, and quote from store at 11 a 12 cents for shoulders, and 13 a 14 cents per 1b. for sides, as in quantity and quality;—some small lots of sugar cured hams in store, but no sales; held at 14 a 14½ cents.——LARD.—
The market continues to be poorly supplied, and prices rule high No late receipts of N. C. make, and no sales; we quote nominally at 16 a 17 cents. Western is in very small stock, and sells from store readily at 15 a 16 cents per lb., as in quantity ---- Pork .-- There is a fair stock of Northern in store, with a limited esquiry, and we reduce our quotations a shade.
